ABOUT US

Bearstack LLC helps local and federal government agencies meet their mission requirements by delivering modern IT and AI solutions backed by dependable contract fulfillment. Founded in 2026 in Gulf Breeze, Florida, we combine specialized information technology expertise with modern automation to execute contracts efficiently, accurately, and affordably. While IT is our core strength, our adaptable team is built to fulfill a wide range of government contract requirements.

DIFFERENTIATORS

- Built around modern automation and AI tooling for faster, more accurate results.
- Deep IT specialization plus the versatility to fulfill contracts across many categories.
- A lean team led directly by its founder, offering accountability and rapid response.

OUR APPROACH

- Understand the requirement and align scope, timeline, and compliance up front.
- Execute efficiently, using AI and automation to deliver on time and on budget.
- Deliver and support, reviewing every deliverable for quality and standing behind the work.

CORE COMPETENCIES

Bearstack LLC delivers modern technology solutions and dependable contract execution, including:

- AI integration & workflow automation
- Custom software & application development
- IT consulting & systems integration
- Data processing, hosting & analytics
- IT support & managed services
- General government contract fulfillment

READY TO SERVE

Bearstack LLC is registered, active, and ready to support local and federal contracts today. We welcome opportunities with government agencies and prime contractors seeking a capable IT and AI partner.
